An electronic power of proxy must be submitted/sent to the Company from the shareholder's email address which has been verified and confirmed by the shareholder personally at the Company's registered office (the main office) or confirmed in a deed drawn up before a notary public, with its copy submitted to the Company. If an electronic power of proxy is submitted/sent to the Company from an address that has not been verified and confirmed by the shareholder in person, it must be enclosed with copies of the identity cards of the shareholder and the proxy, or – if the shareholder is a legal person – copies of the documents specifying the method of the shareholder's representation, along with copies of the identity cards of its authorised representatives and a copy of the identity card of the proxy. For the purposes of drawing up an attendance list for the General Meeting, a proxy appointed by an electronic power of proxy must present a document confirming the appointment (a printout), enabling identification of the shareholder who appointed the proxy, along with an identity document of the proxy.

If a proxy voting form is to be used (the form is available from <http://www.famur.com>), the proxy must deliver the form to the Chair of the General Meeting before voting starts on the resolution which according to the shareholder's instructions is to be voted on by the proxy using the form. The Chair of the General Meeting will inform the General Meeting that a vote has been cast using a proxy voting form, which will provide the basis for counting it towards votes cast on the resolution. Proxy voting forms used to cast votes during the General Meeting will be attached to the minute book. Shareholders may, but need not, use the proxy voting form available from the Company, and casting valid votes by a proxy is not conditional on using the form. Using the proxy voting form is a shareholder's right, but not obligation. It is a shareholder who decides how their proxy is to exercise the shareholder's voting right.
